\$2,000 new in 2014, now \$200

iFixit: https://www.ifixit.com/Device/MacBook_Pro_15%22_Retina_Display_Mid_2014

Java helloWorld in Codespaces

To compile and run in one line:

```
$ javac HelloWorld.java ; java HelloWorld
```

Alex Lee

System.out.println In Java #2

Lab2 PrintStatements

Set up Lab2 in Codespaces

- [Lab2](#) available on GitHub CS101
- Tips:
 - To compile and run in a single terminal command, use:
 - `javac printStatements.java ; java printStatements`
 - Use CTRL-C and CTRL-V to copy-paste lines of code
 - Use CTRL-"/" to comment in/out code

Next Class 1/27

1. Lecture or YouTube: Binary
2. Start Lab3
3. Work on Lab1/Lab2/Lab3
4. Quiz2 practice

- **Bring Headphones every class!**
- I'll bring food if everyone comes to an office hours or schedule a 1on1 **before Thursday 1/29**
